

MockCOP 2020

The Model United Nations MockCOP conference

MockCOP conference provides a fantastic interactive opportunity for young people aged 14-18 to learn about the UN, the annual climate change talks and develop tolerance and understanding of nations and cultures by acting as those nations whilst discussing global issues.

WCIA and Size of Wales are returning with their MockCOP programme for 2020/2021.

Students from across Wales are invited to attend a Climate Change Conference which will be conducted in the style of a Model United Nations. They will be assigned countries, make speeches as well as debate and negotiate solutions to climate change.

Also this year we are providing mini-MockCOPs, a whole MockCOP in your classroom! We will provide all you need, an introductory session with an outreach officer, pack for students and presentations, in English or Welsh. 100% FREE

Find our more or book your own MockCOP
